About ROYAL SELANGOR

Since 1885, Royal Selangor has charted a steady course of innovation and quality in pewter craftsmanship. We export to more than 20 countries. Our sport commissions began in the 1940s with cup trophies. In the 1980s, we acquired a printing machine that enabled us to expand our trophy and medal ranges. We haven't looked back since.

Our pewter is the material of champions, the chosen mementos for events such as the Commonwealth Games, SEA Games, F1 Grand Prix, the Rolex Shanghai Masters, UCI cycling tournaments and many more.

In football and in life, whatever winning means to you, it takes a team to win. That's the FIFA World Cup 2026 belief. That's also the spirit that underlines our collaboration with FIFA. Our product offerings aim to extend the fan journey long after the biggest sports event on earth ends.

About FIFA

Football, meet soccer. Since 1904, FIFA, the world governing body of association football, has been instrumental in promoting football and the social drivers that uphold the sport. The global kinship it inspires is second to none.

Under FIFA, 2026 is doing what has never been done before and will reset how we define unity. In an unprecedented move, three countries – Canada, United States and Mexico – in one continent will host the FIFA World Cup tournament. Common ground is being found on the same pitch.

The logo and the mascots chosen for the tournament will be showcased before 211 FIFA member associations around the world, 48 nations and billions of humans. Maple™ the Canadian moose, Zayu™ the Mexican jaguar and Clutch™ the American bald eagle maintain the unique identity of each host country. They're worlds apart but when they come together as a team, they are stronger. The products they culminate in connect the fans to the matches and national teams. And this is where our opportunity lies.

About the collection

The Royal Selangor special edition collection for this event celebrates the spirit of unity and common ground that is found on the same pitch. Featuring drinkware, home accessories and figurines, all are crafted in pewter, the material for champions.
